« One Sustainable Health »

ONE HEALTH is an integrated, unifying approach that aims to sustainably balance and optimize the health of people, animals and ecosystems.

It recognizes the health of humans, domestic and wild animals, plants, and the wider environment (including ecosystems) are closely linked and inter-dependent.

The approach mobilizes multiple sectors, disciplines and communities at varying levels of society to work together to foster well-being and tackle threats to health and ecosystems, while addressing the collective need for clean water, energy and air, safe and nutritious food, taking action on climate change, and contributing to sustainable development.

International Working Groups

Objectives

- 1** To identify operational programs and pilot actions, based on a transversal and multidisciplinary process driven by a community of experts (public and private operators, researchers and regulators).
- 2** To mitigate existing “silos” through interdisciplinary and multisectoral discussions and address priorities in the field in a consistent manner by working in complementarity with existing organisations, initiatives and projects.
- 3** To make operational recommendations that will be integrated into a *One Sustainable Health Declaration*, to be published in March 2023 in Lyon. The *OSH Declaration* will provide guidelines for operational programs and public policies for stakeholders involved in the field.

The 7 International Working Groups themes

- **Independence**

Members of the IWGs shall participate as individuals and not as representatives of their institutions. They will be required to disclose any interest that may conflict with their commitment in the OSH Forum or that may have an impact on the discussions.

- **« Chatham House rules »**

In order to encourage open dialogue, Chatham House rules will apply to all discussions held within the IWGs. No paper, or report, or declaration shall reveal or assign expressed opinions or ideas to an identified participant.

- **Focus on operational recommendations & implementation**

IWGs are expected to propose operational outputs on the five set of deliverables identified in the next slide. Their thematic discussions will also directly feed the « 6+1 » discussions and global vision to be presented in the *OSH Declaration*.

International Working Group deliverables

The *One Sustainable Health Declaration* will be a joint publication between all the individuals and organisations that are members of the OSH Forum. IWG 6+1 will have the task to synthesize the recommendations made by each group within one, transdisciplinary and collaborative manifesto. **The recommendations made by each group must consider the following five deliverables:**

ADVOCACY

Global vision and integrated approach.

OPERATIONAL RECOMMENDATIONS & PROJECTS

Focus on implementation.

RESEARCH

Strategic agenda for interdisciplinary research.

EDUCATION & COMMUNICATION

Share knowledge, facilitate behavioural change and raise awareness

ETHICS

Common values.

World Health Summit, Berlin

OSH Forum

How to organise an OSH approach which can involve the different key stakeholders in health while ensuring their diversity and complementarity ?

On October 26th, 2020 at the French embassy in Berlin, a pledge for the cooperative development of the OSH Forum was signed between the One Sustainable Health for All Foundation and the World Health Summit. This forum is to include all stakeholders in order to facilitate the operational implementation of the One Sustainable Health approach through innovative projects.

OSH Forum is part of the movement towards an integrated, borderless approach to One Health. This is an approach of general interest, involving professionals, researchers, operators and regulators, all concerned by the issues of One Health.

1 Objective
Define and promote operational recommendations that embody a true **One Sustainable Health approach**

5 Continents
A collaborative global forum.
A comprehensive and inclusive approach.

1000 Participants
200 committed experts, 50 strategic partners and hundreds of contributors and followers.

The One Sustainable Health for All Foundation leads the **One Sustainable Health Forum (OSH)** in partnership with the **World Health Summit (WHS)** of Berlin and the **Geneva Health Forum (GHF)**.

50

7 International Working Groups
OSH Forum launched on the 7th of July 2021 in Lyon, the 7 « **International Working Groups** » (IWG) working to develop **recommendations and guidelines to facilitate the operational integration of a One Sustainable Health approach in the field.**

Strategic Partners
Contribute to strategic thinking. Facilitate development.
Promote OSH Forum. Participate in meetings.
Disseminate and implement OSH Forum recommendations.

SAVE THE DATE
TUESDAY 8 FEBRUARY 2022
2PM - 5PM (CET)
LIVE VIRTUAL INTERACTIVE SESSION
LYON, FRANCE

FRANCE22
FRENCH PRESIDENCY
OF THE COUNCIL OF THE
EUROPEAN UNION

On the occasion of the European Ministers of Health and Foreign Affairs meeting in Lyon on February 9th, the OSH Forum has the pleasure to invite you to participate in the online session led by experts from the civil society (associations, foundations, academics etc.) to promote a consensus of recommendations to the EU ministers.

"Building a European Health Union"
Taking global responsibility!

Speech on One Health issues for Europe, during the European Health Ministers meeting in Grenoble on Feb 10, 2022
