

Governance and secretariat

PREZODE Interim Secretariat

Pierre DUSSORT

Draft Governance Proposal

Secretariat

- support the Steering Committee and the General Assembly for the organisation of meetings and reports,
- supports the additional working groups, or operational committees, on specific topics created by the Steering Committee,
- ensure the availability of tools to facilitate coordination, collaboration and communication between members,
- prepare communication materials to foster exchange with external stakeholders, or potential partners,
- support the review and evaluation of the activities performed,
- report each year on its activities and on budget related issues.

Reflection on a PREZODE label

PREZODE Interim Secretariat

Marisa PEYRE

What could be a PREZODE label ?

- A way to indicate a willingness to contribute to the global effort for zoonotic disease prevention
- A way to show that we are operationnaly working together on the prevention of zoonotic disease emergence
- A way to foster synergies between activities through active cooperation, collaboration and communication

What to be labelled ?

- LARGE FUNDING PROGRAMS – which are also promoting integrated health approach for the prevention of emerging risks
 - Could co-fund projects or activities with PREZODE
 - Projects funded under a PREZODE labelled program will be PREZODE labelled
- PROJECTS
 - Research projects
 - Research and development projects
 - Development projects
 - Training programs/curricula

Why labeling funded programmes or projects ?

- Access to a large network and opportunity to create new collaboration and synergies
- Access to a knowledge platform and tools
- Visibility for the thematic and for the activities

How the labeling could work?

- Identification of criteria based on PREZODE scientific postulates and values : is the project or programme meets PREZODE basic principles and values ?
- No assessment of the scientific excellence – Programmes will keep their autonomy and independance
- Process through the Steering Committee with external reviewers
